

## ANAND VIHAR NEW DELHI -001

---

### FIELD REPORT

4<sup>TH</sup> APR, 2017

VISIT-1

### ACTIVITY NAME-Food drive

The drive was conducted in and around Anand Vihar area where, a lot of beggars, child beggars and needy people can be found easily..

Our team provided them a meal and we discussed about there problems, needs etc so that we can come up with more better drives.

Here are the glimpses of the drive :

The child beggars at Anand Vihar bus stand were hungry, we gave them meal and had chat about there conditions and all. One named Alam didn't had his parents alive but was eager for education.

This is a picture of the area where the workers involved in nearby govt. construction sites live. A lot of newborns and kids were there, most women too were involved in construction and all.. They were happy when we reached, gave them the food packets and asked them to leave their kids with us for education when we start the education courses in near future.

The people with food packets in hand.

And this, the last place we visited because we had no more food packets...

Look at those innocent happy faces
